Ino Coin – the global platform for funding and providing of know-how to young blockchain projects, built in the Ethereum network.

We created this platform to change the world by helping and funding young startup companies. The decision for funding of the startups will be taken together with InoCoin’s owners. Everyone who has a good idea can apply at the www.inocoin.eu site to have a chance of getting funded. In order to raise funds for funding of various startups, inocoin will be traded at crypto markets.

InoCoin will differ by having real use of the currency, since the funds granted to startups will be in InoCoin. After the realization of a given project thanks to the InoCoin users of said project, the payments will once again be made only in InoCoin currency.

It is important to us to build an ecosystem which will be useful both for InoCoin owners and for the startups we are going to help.

With every successful project, the price of InoCoin will rise and this will provide us with more and more funds to invest in the next successful endeavor.
